

ROCTalent 2019

Learning & Development Conference

Session Speaker: The Future of Work is Being Shaped by Neuroscience

Joan Graci
APA Solutions

As a certified neuro-leadership coach Joan has disrupted industry norms by applying science for visionary HR and industry leaders promoting growth and transparency and aiding corporations in building effective teams. She has worked on the front lines of the employment world for 30 years, collecting and analyzing data on the real problems growing organizations struggle with. Joan has taken a holistic approach to the talent management process and the ability to change behaviors, becoming the only brain-based-certified Talent Coach in Western New York. As a result her clients' have experienced exponential growth in revenue goals, production levels, and retention rates.
