

The [Accenture Academy](#) Academy Live (Live Interactive Virtual Education) team seeks an experienced Instructional Designer to develop engaging webinar and eLearning courses. This is a 6-7 month contract with potential for an indefinite extension. The target rates for these positions are based on experience, expertise, education, and portfolio. The location is virtual, although CST or EST is preferred.

Key Responsibilities:

- Facilitate the design, construction and implementation of eLearning applications and courseware that support business objectives.
- Apply adult learning theory and instructional methodology to successfully build and deploy eLearning solutions.
- Work in close partnership with both internal and external teams and partners to design, collaborate, develop and deploy Academy eLearning courses/curriculum to eLearning users.
- Ability to travel as needed (~5%)

Essential Qualifications:

- Expert using Articulate Studio '09
- Strong visual learning design / graphic design skills
- At least 4 years of experience in online course development or instructional design.
- Bachelor's degree
- Expert skill-base in Microsoft Office PowerPoint 2007

Preferred Skills:

- Experience and/or relative knowledge in Supply Chain and/or Finance
- Experience collaborating with subject matter experts to develop strong eLearning solutions
- Knowledge of and experience in eLearning tools and Internet technology
- Experience with sound editing software
- Experience with collaborative technology, commonly defined as Web 2.0 or social media.
- Basic knowledge of HTML protocol and HTML coding
- Experience with authoring marketing collateral or script-writing.
- Experience collaborating with experts to develop webinars

Professional Skills Requirements:

- Excellent communication (written and oral) and interpersonal skills
- Ability/desire to learn new software as needed
- Eagerness to contribute in a team-oriented environment
- Ability to work creatively and analytically in a problem-solving environment
- Ability to make recommendations for process/product improvements
- Very detail oriented and great organizational skills
- Ability/desire to learn about the webinar process and facilitation process
